Hi Ryan. Thanks for the clarification. I didn't realize you were talking about aftermarket catalysts. I was thinking you were a vehicle manufacturer for which the certification requirements are very different.

You did the right thing and you are all set.

Sorry for any inconvenience.

Regards,
Holly

Subject: RE: Request for US EPA Manufacturer Code

Hi Holly,

We sent the emissions testing results for Three-Way Group's aftermarket catalytic converters per 40 CFR Part 85 to Linc Wehrly. The documentation maintains that the average efficiency for THC, CO, and NOx was met under the specified repeatability limits.

Was this the correct process or do we need to submit additional information elsewhere to comply with the sale and use of aftermarket catalytic converters under EPA guidelines?

Thanks,
Ryan Wong

Hello Mr. Wong. Can you please explain what you mean by "certification paperwork"? If you are referring to the paperwork needed to establish EV-CIS user accounts, that paperwork needs to be sent to the address below for processing. If you are referring to something else, please let me know so we can further assist you.

Regards,
Holly

Hi Judy,

Thank you for providing the information. We submitted a physical copies of certification paperwork under the code **TWG** to Linc Wehrly.

Best Regards,
Ryan Wong

Subject: Request for US EPA Manufacturer Code

May 16, 2019

Hello Three-Way Group,

The US EPA received your request for a manufacturer code. Three-Way Group Ltd was given the code **TWG** on April 27, 2016. This code is still valid and should be used when submitting documents to EV-CIS (formerly Verify). I have attached the information currently on file for Three-Way Group.

You may need to update your user information. Please go to <https://www.epa.gov/vehicle-and-engine-certification/how-register-engines-and-vehicles-compliance-information-system-ev>.

Thank you,
Judy Fearnside
